Enjoy even bigger discounts if you order HP 960C ink cartridges in bulk. Ensure to explore different quantities to find the price break for HP DeskJet 960C ink cartridges that suit you best. Worried that our printer cartridges might expire before you use them all up? We assure you that our HP 960C Printer ink cartridges are fresh from the factory every month and have a tested shelf-life of at least 20 months. Enjoy our free shipping offer for orders over \$50 (for orders shipped to all 50 states in the USA). Plus, our low-priced HP 960C printer cartridges are backed up with a 1-year 100% satisfaction guarantee. Shopping for cheap replacement ink cartridges can't get any better than this! NOTE: Please be informed that using CompAndSave's HP DeskJet 960C printer ink cartridges will never void your printer warranty. For further questions or inquiries, feel free to contact us, and our Customer Support Representatives will be more than happy to assist you. Free shipping on orders \$50 or more All ink & toner come with a one-year 100% satisfaction guarantee. Our products will never void your printer's warranty. Replacement HP DeskJet 960C Ink Cartridges from \$18.95 Turn the printer on. Get access to the HP 960C printer ink by opening the printer's top cover. The ink cartridge carrier will move and settle for the cartridge replacement position. Do not move or stop the print holder by touching it or forcing it to move. Allow it to settle without interruption. Raise the green tab that holds the cartridge and pull the cartridge out of the machine. Get your new CompAndSave HP 960C printer ink cartridge. Open the cartridge over a sink or garbage can to avoid any messes in case of an ink leak, as sometimes, factories tend to overfill cartridges. Make sure to touch the black plastic part only, then remove the covering tape that is usually bright in color and the plastic protective case, if there is, before installing it. Put the HP 952C printer ink in the holder and lower the tab to secure it. Close the printer's cover. How long do HP cartridges last? HP cartridges last depending on their ink volume and page yield. Another factor that determines how long they would last is usage. Now if the answer you are seeking is about the shelf life, CompAndSave's replacement HP cartridges has a shelf life of 20 months. Our cartridges are always fresh from the factory and is backed up with 1-year 100% satisfaction guarantee. For more information, click ink knowledge base and you will be redirected to the right page. How do I fix incompatible HP ink cartridges? First, make sure that the ink cartridge you are installing in your printer is the right cartridge model. To verify, check the printer's manual or check the depleted ink cartridge, in front or on the side is a label or sticker with the printer model which is usually a combination of alphanumeric characters. If you already verified this part, next step is to troubleshoot by turning off the printer for 15 minutes and wipe the contacts of the ink cartridge with a nonabrasive towel or cloth with water or alcohol. For more detailed information, just click troubleshooting tips and you will be redirected to the right page. Subscribe with us and get special welcome deal today. Plus, you'll receive exclusive email offers or news weekly. CC0/andreas160578/Pixabay HP printers are some of the best for home and office use. When problems occur, however, it can be frustrating troubleshooting cryptic errors. Fortunately, a few simple diagnostic steps can help you get your HP printer functioning again. In addition, HP has made available some troubleshooting software to identify the root of the problem.For cases where you are unable to fix issues yourself or using the provided software, you will need to take your printer to a professional. This guide shows you how to identify and fix the most common HP printer problems. Is Your HP Printer Not Working?Common symptoms of a printer malfunction include the following:The printer does not power on The printer produces ink-soiled prints The job does not get printed at all The prints are sent to the wrong printer Paper gets jammed If you see any of these troublesome signs, then it's possible your printer has malfunctioned and needs attention. The severity of the problem may be small enough that you can fix it yourself. Some printer malfunctions, however, require professional repairmen, especially for more expensive heavy duty printers. Before you go about calling the repairmen, you should see if the malfunction can't be addressed with a simple do-it-yourself fix.Learning How Your HP Printer WorksThere are two main types of printers available from HP, and it helps to be aware of how your specific model works.Inkjet printers - HP sells inkjet printers such as the HP Envy 4520, HP Officejet 4650, and HP Officejet Pro 7740. Inkjet printers work by shooting a very fine stream of ink at the paper. The parts of an inkjet printer include gears that move the paper, ribbon cable that conveys printing instructions, and print cartridge. Laser printers - HP also provides laser printers, including the HP LaserJet Pro Multi-function, HP LaserJet Enterprise, and others. In a laser printer, electronically operated ink guns are replaced with a laser beam that guides ink to form a print impression. A fuser unit then sticks toner to the paper. Diagnosing Common HP Printer ProblemsThere are some basic guidelines you can use to fix the HP printer problem you are having. First, if the printer won't print at all or does not light up, check that all cables are connected. These include power as well as Ethernet cables. You also need to check the wireless connection if the printer connects wirelessly.Next, if there is a paper jam, you will want to open up the paper feeding system and locate where the paper is clogged up. Then gently draw out the jumbled up paper and restart the printer. Other paper problems may be checked by looking at the paper feeding system as well.If, on the other hand, your printer has no discernible jams but you still can't print, it's time to check other parts are working correctly.In case the printer is printing but prints are soiled with ink or faint, then you might need to adjust your ink cartridge or toner. Sometimes your printer fails to print not because there is anything wrong with the machine, but the software is misconfigured. If this is your first time setting up the printer, verify that you have followed all the instructions for configuring it.How to Reach The HP Printers Help DeskHP makes support available via several web channels for getting in touch. The first option for getting quick answers to common problems is to visit the HP forum from their HP Support website.On the Support website, you will also have access to the online instant chat system which allows you to get in touch with HP reps. HP has a guided support system on their website that can help you find solutions to problems with your printer. You may also send a support request, which is routed to their help desk. For this you need the serial number of your HP printer. Options for Repair Work Despite your best efforts, sometimes your HP printer will have a mechanical breakdown or other hard faults. When this happens, your best course of action will be to bring it to some professionals for proper repair.HP has authorized support providers all around the United States. You can enter your ZIP code on HP's support website to locate authorized HP service providers.You might also have the option of shipping your product to HP and having them repair it for you. You will need to get in touch with their support representatives to explore this option. MORE FROM LIFE123.COM If you regularly print documents for your business, you'll need to perform frequent maintenance to keep your printouts sharp and clear. Over time, dried ink and dust can clog the ink nozzles and cause streaks or blank spaces on the paper. HP Deskjet printers have a built-in process that cleans dried ink from inside the cartridges, which may eliminate missing lines or dots on your printouts. If you notice ink streaks after printing, you'll need to manually clean the cartridges to remove any external debris. Manual Cleaning Turn on the HP Deskjet printer and lift the cover. When the ink cartridges move to the center of the printer, unplug the power cord and lift the cartridges out of the printer. Set the ink cartridges wide side down on a piece of paper. Dampen cotton swabs with water and squeeze out any excess water. Clean the edges around the nozzle plates on the bottom of the ink cartridges. Do not touch the nozzle plates or copper contacts with the cotton swabs. Clean the ink cartridge cradle inside the printer with clean, damp cotton swabs. Allow the ink cartridges and cradle to dry before replacing the cartridges. Close the printer cover and plug in the power cord. Print a test page to ensure that the cartridges were reinstalled properly. Automatic Cleaning Click Start and "All Programs." Locate the HP Deskjet printer in the list and click it to open the printer menu. Alternatively, you can click the HP Deskjet icon on your desktop or in the task bar. Click the "Printer Services" tab and then click "Clean the Print Cartridges." Click "Clean" to clean the printer and print a test sheet. Examine the test sheet and click "Done" if the print quality is good. If not, click "Intermediate Clean" to perform a deeper clean. If the print quality is good, click "Done" and then click "Prime." Examine the last test sheet and click "Done." If the print quality is bad after the intermediate cleaning, you may need to replace the ink cartridges.
